CREDITS ROLL

BLACK SKREEN

Blank Screen V.O of John Bradshaw a caption taken form his talk on 'Healing the Shame That Binds You'.

The greatest poem ever told

Is one all poets have outgrown:

The poetry, innate, untold,

Of being only four years old.

Created using Celtx

Born comrade of bird, beast, and tree

And unselfconscious as the bee-

Elate explorer of each sense,

Without dismay, without pre tense!

In your unstained transparent eyes

There is no conscience, no surprise:

Life's queer conundrums you accept,

Your strange divinity still kept.

And Life, that sets all things in rhyme,

may make you poet, too, in time-

But there were days, O tender elf,

When you were Poetry itself!

FADE IN OF THE VIDEO (HEALING THE SHAME THAT BINDS YOU) NBY JOHN BRADSHAW

JOHN BRADSHAW

Thats that poem of Christopher Morley that Buckminster Fuller loves to quote. That every one of us where creative artists. Every one of us had this wonderful feeling, vital spontaneous life and something happened. You know some people ash might call it original sin but something happened originally or very early on to a lot of us so that we lost that spontaneity. We lost that kind of verb and enthusiasm. I mean there is nothing more tragic than to watch a child whose had the life beaten out of them, or has been scared so badly with emotional battering that they are all up tight and they with drawn, and they can see the depression in the child. So how does it happen that a child is born and has all this preciousness and this goodness and then by a certain point of life they

Created using Celtx

are shame based, they feel rotten about them selves, their core believe about themselves is that I'm floored and defected as a human bean. Now every addict no matter what the addiction is has that core believe. If its eating disorders, whatever the eating disorder is, if its violence, if its criminality, the addiction to violence, the addiction to power, workaholism, rage addiction, all the addictions I have been talking about. Whatever the addiction is, it's going to be rooted in toxic shame, the core believe that Im floored and defected as a humanbien.....

The Video fades out to black

Darth curls into a ball protection himself with his hands.

KATE
You stupid fuck. you fucking, fucking stupid fuck.

Kate a fiesty looking young woman in her 30s is taking her anger out on Darthy beating him from the drivers seat while trying to concentrate on the road while driving.

There is a sophisticated looking lady leading the group named Ursula.

Created using Celtx

MARY
Hello every one this is Darhty he with be joining you today.

URSULA
Hi Darthy so happy you could join us, this is a gender group. We separate the boys and the girls in this group so as to create a safe space where you can discus any sexual issues or abuse you may have suffered.

Darthy nods and goes to find a seat. Mary leaves. The guy that was talking when Darthy entered carries on talking.

GUY #1
(sniffling still from tears)
and after I had wiped away my tears and my father was pulling up his pants. He started shouting for me to be a man and stop crying so much.

This is quite a lot for Darthy to suddenly be exposed to.

GUY #2
Just smoking that stuff it was like my sex drive would go through the roof. I would come back from the dealer and after uses I'd shut my bedroom door, close all the curtains, turn the porn on. Days later I would come out looking like a prune.

There is a bit of laughter from this remark. George a really weedy looking guy slightly over wait and ballding a little

GEORGE
I was out of my mind high I hadn't slept in like 3 days and just couldn't handle the sexual urges any more I was about to go at anything. So ole Sargent my dog works in. I was just looking at him and then I wasn't even thinking any more and I started lifting up his tail and at first I was trying to get it in but it was hard because the dog kept on moving but eventually I got it in and I just kept on going and going.

Darthy is shocked at what he is hearing. Another participant

Created using Celtx

in the circle starts to talk

GUY #4
I had a similar experience with my dog. It's just I needed the touch of some one some thing.....

There is a very uncomfortable silence after these remarks. Darthy is absolutely gobsmacked!There is a slight ahuferling and then a cough.

Another Guy covered in badly done jail looking tattoos wherein a thick silver chain round his neck, short hair and a few teeth missing this is Frik.

FRIK
The amount of money I would spend not just on supply but the using would always leed to the prostitues. So not only was I using all my money on drugs but a lot was on girls too.....

Frik's share fades out well Darthy is in shock of what is going on around him.

INT. REHAB CANTEEN - DAY

Darthy puts his cutlery down on the table. He touches the cutlery with left hand than he touches it with the right hand, then the left hand again, then with both hands. Darthy picks up the cutlery with both hands then reachers into his pocket and takes out the packet of wet wipes Kate gave him and takes one out and starts cleaning the cutlery. Clyde chewing his food is watching Darthy perform this ritual. Darhty looks up at Clyde, Clyde takes another mouthful of beans.

DARTHY
Please may you pass the salt

Clyde passes the salt.

DARTHY
Thanks

Created using Celtx

CLYDE
Your welcome. Your debt has been cleared

DATHY
What

CLYDE
Your Debt to me from me passing you the salt

Darthy takes a bite of his toast and tries to ignore Clyde.

CLYDE
Please and thank you derive from the debt system from western civelisation quintessential the basis of capitalism. You see in the Stwana langauge there is no please. anthrapoligest have trying to figure out where the dept system came from and its everywhere in society even in our social inter action with each other. Take for example the salt. you ordered me to pass the salt but you said please which makes it seam that it is not an order but it really is. I pass the Salt now as this favour of passing the salt you are indepted to me. You reinsure this by saying thank you which is derived form think which means I will remember what you did for me reenforcing that you owe me one and you are placing yourself in my power. Now when I say you are welcome back that is a way to say you don't owe me anything and clearing your dept so we can walk away as equals.

DARTHY
Dam sorry I asked.

Clyde reaches his hand out across the table.

CLYDE
Im Clyde.

Darhty shakes Clyde's hand

DARTHY

The addicts just stand staring at the Consolers. Rocky the dog comes up to the addicts to great them and starts sniffing George's pants (the guy that confess to sexually abusing his dog). The one consoler sees this and immediately reacts running up to the dog and pulling it away for the George giving him a look of disgust.

Created using Celtx

CONSOLER 2
Ashwin why don't you go first.

Ashwin has a box and other things he has found.

ASHWIN
(holding up the box)
See this is where I come form the gutter. And see this.

He points to the Red bold Print on the side of the box reading Fragile.

ASHWIN
This is because now I am fragile. But Im going to be strong like this Rock.
(Holds out a rock)
But thought Prey I will fly up to my Higher Power like a bird.

Is negative they base there whole premasise on failure

URSULA
why is that

DARTHY
Well they put you on this pedastal and drill into you the fact that you will fail. They make you believe that you are always sick even when you are not drinking and then on top of that they make you count the days to your next failiar. I just want to be a normal person not in living in this constant axciety that I'm destined to fail.

Then some times someone is not having such a good time like this young fella over here and No one offers advise or a solution just a bunch of people siting in a circle saying shitty things with no solutions. What's the fucking point?

SHARER #2
We are here for support not to advise if I was you I would take the cotton wool out of your ears and put it in you mouth young fella.

FARNY
When I first started coming to AA I was just like you. But with determination because I had nothing els that was going to keep me alive I had a fundemental shift. You must just take what you like and leave the rest. Its about progress not perfection. Any way everything you kneed to know is in this book read it and you will start to understand what we are doing here.

INT. DEARTH'S LIVING ROOM - DAY

Darhty sits on the couch looking at the AA book Farny gave him. He opens it pages through it a bit and then throws it onto the coffee table and lyes back with a sigh. Kate comes in she is been weird.

well we can still do that just because i've stopped drinking doesn't mean we can't still have fun.

KATE
Its not the same we used to have fun and talk and be passionate

Created using Celtx

KATE
Ive met someone els

DARTHY

KATE
No not that.

DARTHY
Well what have you been going out with him, have you been kissing him?

KATE
No we just met. He showed interest in me and you haven't been around for so long that natural that if someone shows interest in me it feels good

DARTHY
so the first guy that you speak to in the street you going to go fuck him?

KATE
you don't know how hard it was for me when you went to rehab

DARTHY
Well what about me do you think it was easy for me been in rehab? do you think it was easy for me? do you think I liked been in rehab?

KATE
I need to clear my head, Im leaving tomorrow for the Transky for two weeks.

DARTHY
The Transky? Who you going with?

KATE
With John

Created using Celtx

DARTHY
John? Is that his name John? where did you meet this guy?

KATE
He lives across the street

DARTHY
Across the street for fuck sakes Kate. So you think this John is better than me? What does john do?

KATE
He deals in scrap metal

DARTHY
You going to leave me for a guy that deals in scrap metal? Listen to your self have you fucking lost it???

INT. SMALL BEDROOM - DAY

Clyde sits on the bed. Arthur sits in his chair by the window . He stairs out into the yard

CLYDE
I had no sense of worth no sense of love and belonging I was always wondering if I was good enough for you dad. I did not think I was worthy of love and belonging I began to feel I was not worthy of conection to anyone. I did not have the courage to be imperfect I wanted to be perfect for you but you never noticed me and the more I tried the more I felt like I was imperfect. So I started using but what I started to relize was it was also numbing my Joy, gratitude, happiness. Which made me miserable and just and made me look for purpose and meaning which made me feel venerable again so I would use some more. I want you to see me for whom I am I stand here venerable telling you I don't want to disappoint you any more. I wanna make you proud.

Where are all these fucking promises AA promises. Promise number 2 "we are going to know a new freedom and happiness" since I've been sober all I have had is misery and suffering my girlfriend that I thought I was going to marry and have kids with has left me the company I worked for the last 10 years fired me. I don't have any more fun life just seems so boring now I just sit at home with only my mind

DARTHY

And another thing that is driving me crazy is I'm constantly thinking about death and what happens when we are dead its like an obsession of mine and its terrifying me because every angle I take seems to all end up in the same conclusion that there can't be and consciousness after death and that just is terrifying me. I keep thinking of the enormity of eternity that when i die I will be dead for ever and ever and ever and ever. I always thought of death obliquely as that something that might happen rather than that would happen, and now I am waking up to the fact that it is something that will happen to me someday and now that I have woken up to this terrible truth I can't go back its plaguing me in my every waking moment. I keep thinking that my world or my memories eventually wont exist anywhere my memories of my child hood street and house, family gatherings, my parents, friends loved ones, beach house, high school, favorite holiday all evaporate with death nothing stable nothing enduring what posoible meening can a life of such evenessance contain. Im becoming ecutly aware of meaninglessness that everything we do seems doomed to oblivion and the planets eventual demise I emagine the deaths of my perents, sisters, everyone i know. The idea of been an entity separate form my body doesn't really wash with me so I can't console my self with the idea of the imperishable soul. it is no longer something that might happen or that happens only to others. the inevitability of death makes all life meaningless. i regard the idea of immortal soul separate form my physical body highly unlikely and can find no comfort in the concept of an after life. it not only makes me think of oblivion after death is the same of oblivion before birth. every day engaging looms I try leave traces that

maybe mater engaging in the present.

Relationships are important. Research has shown that people with a lower overall quality of social relationship have a more than double the risk of depression. Isolation yourself is the worst thing you can do with this diesseas

DARTHY V.O
Theodore Roosevelt once said. It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; who errs, who comes short again and again, because there is no effort without error and shortcoming; but who does actually strive to do the deeds; who knows great enthusiasms, the great devotions; who spends himself in a worthy cause; who at the best knows in the end the triumph of high achievement, and who at the worst, if he fails, at least fails while daring greatly, so that his place shall never
